

Table Comparing NADAC prices for select brand name prescription medications on October 4, 2012 and October 5, 2016 to show how much prices have gone up for these medications. These medications increased an average of 72% in price over four years which was roughly 15 times the rate of inflation for other products over the same period of time. Prices given are per tablet or capsule or, for liquids, ointments and creams, per gram or milliliter of medication.
