

Revenues for HCA and Five of the Largest Health Insurance Companies in 2017

Hospital Corporation of America (HCA) is the largest single hospital conglomerate in the United States in both annual revenues and total admissions. It's more than twice the size of the next two largest hospital corporations (Community Health Services and Tenet). Even so, four of the five largest health insurance companies dwarf HCA in total annual revenues. Most hospitals in the U.S. are independent and non-profit.
